

Building a future in Europe

Our party is the undisputed home of internationalism in British politics, and the Liberal Democrat European Group (LDEG) is the engine room of that conviction. Our work is only just beginning. As we look toward the next general election and beyond, LDEG must be the clear voice calling for a roadmap back to the heart of Europe.

- Thought Leadership: Generating ideas to ensure our commitment to the Single Market and customs union remains bold and non-negotiable.
- Webinars and Meetings to develop ideas and inform about European developments
- Member Engagement: Regional hubs to support local parties to campaign on European issues in their own communities.
- Alliances: Strengthening our cooperation with our fellow liberals in Europe, ALDE and Renew Europe to give our members a platform on the continental stage.
